

High light the Heading in green and the Subheading in Yellow.

In the copy books answer the following questions:

Elephant

Introduction

Elephants are the largest land mammals in the world. Elephants have trunks which they use for smelling, breathing, making sounds, squirting water and picking things up.

Appearance

Elephants are known for their long trunks, large head, wide flat ears, ivory tusks and very thick wrinkled skin.

Habitat

Elephants can be found in deserts, savannas, and rainforests.

Diet

Elephants eat grass, leaves, roots, flowers, fruits, and bark.

Interesting Facts

- Elephants do not like bees.
- Elephants can live up to 70 years old in the wild.
