

High light the Heading in green and the Subheading in Yellow.

In the copy books answer the following questions:

Giraffe

Introduction

Giraffes are the tallest animals in the world.

They are mammals. They can grow to over 50 meters in height, which is taller than three people!

Appearance

Giraffes have long legs and a very long neck. They have patterned coats, which have darker patches that may be shades of brown or orange. No two giraffes have the same patches.

Habitat

Giraffes live in hot dry woodlands.

Diet

Giraffes eat only plants. They have a very long blue tongue to help them reach leaves and twigs from trees and shrubs. They spend almost all day eating. They get most of the water they need from the leaves they eat.

Interesting Facts

- Giraffes like to meet up in small groups known as "towers".
- Giraffes are usually silent, but they can grunt, snort, and even hiss.
