

**Explanation text instructions:**

**Writing Your Text:**

**1. Introduction (1 paragraph):**

- **Grab attention:** Start with a question, interesting fact, or anecdote related to the invention.
- **Introduce the invention:** Briefly state what the invention is and its importance.

**2. Steps of Invention (2-3 paragraphs):**

- **Chronological order:** Explain the invention process in a step-by-step manner.
- **Key People:** Mention important inventors or people involved in the creation process.
- **Simple language:** Use clear and concise language.
- **Sequencing words:** Use transition words like "first," "then," "next," and "finally" to show the order of events.

**3. Conclusion (1 paragraph):**

- **Summarize:** Briefly restate the main points about the invention and its creation.
- **Impact:** Briefly mention the impact of the invention on our lives.

**Bonus:**

- **Diagrams or pictures:** Include simple diagrams or pictures to illustrate the invention or its creation process (optional).

**Tips:**

- **Focus on the main steps:** Don't go into too much technical detail.
- **Simple sentences:** Use short and clear sentences.
- **Grammar and Punctuation:** Focus on proper sentence structure, subject-verb agreement, and basic punctuation.
